Experience

HBO (Seattle, USA)

2017

User experience designer for HBO's technology. Worked on their digital products on many different platforms and experimented with interactions on emerging technology.

Anedya Foods (Surat, India)

2016

Heavily involved with the startup's management and the design of the physical packaging. Also, completely designed and developed the company website.

The Daily (Seattle, USA)

2015 – 2016

As an advertisement designer for the university's newspaper I designed many advertisements for physical newspapers and the digital website according to the needs of different clients.

Startup UW (Seattle, USA)

2015 – 2016

Head of Design: As a member of the executive team of a club focused on entrepreneurship, I helped with organizing events, increasing student presence in the club, marketing/promoting and graphic design.

Pixel Daily (Seattle, USA)

2015–2016

Design Evangelist: I was responsible for graphic design work, forming partnerships, increasing social media presence and bringing design awareness to a larger audience.

Rickshaw Driver (India)

2016

Drove an auto-rickshaw for close to 2500 miles (4000 kms) across India alongside four friends while raising money for both Seattle Children's Hospital and Cool Earth.

Education

University of Washington

Class of 2018

Bachelors of Design in Interaction Design

Stanford University

2012

Attended the summer quarter and completed courses in Technology Entrepreneurship and Introduction to Engineering Analysis.
