Experience

Smart Design — Interaction Designer
2018 (New York)
Worked in a fast paced environment at the studio to research and design for projects that focused on financial technology, medical healthcare products and the future of voice assistants.

Clinical Psychology — UI Designer
2018 (Seattle)
Helped a clinical psychologist by designing a medium to enable patients to better understand and mitigate their personal addiction with drugs and alcohol. Also, designed a doctor facing website that enabled them to make use of the generated data.

HBO — UX Design Intern
2017 (Seattle)
Worked on digital products for HBO's technology within 3 teams. Iterated and tested mobile application designs, created flows to facilitate conversations through Amazon Alexa and HBO's content and started the complete redesign of HBOGO.com.

Anedya Foods — Designer, Founder and Manager
2016 to Present (India)
Started a business in making consumer freeze-dried foods. Designed and developed the website while being heavily involved with the startup's management and business trajectory.

The Daily UW — Graphic Designer
2015 – 2016 (Seattle)
Designed many advertisements for the university's physical newspapers and the digital website according to the needs of different clients.

Rickshaw Driver
2016 (India)
Drove an auto-rickshaw for close to 2500 miles (4000 kms) across India with four friends while raising money for both Seattle Children's Hospital and Cool Earth.
